Call for Organisers

The International Conference on Interactive Digital Storytelling (ICIDS) is the yearly meeting of researchers and practitioners in the field of interactive storytelling. Introduced in 2008 with a global scope, ICIDS supersedes two European conference series: the International Conference on Virtual Storytelling (ICVS), organised in France 2001-2007, and the Technologies for Interactive Digital Storytelling and Entertainment conference (TIDSE), hosted in Germany 2003-2006.

The first four editions of ICIDS were held in Erfurt, Germany; Guimarães, Portugal; Edinburgh, UK and Vancouver, Canada.

The ICIDS committee invites peers with track record in the field to organise and host the next editions of ICIDS. Interested parties from any part of the world may submit a bid application form for evaluation.

Submission deadline for ICIDS 2012: December 31, 2011.

Submission deadline for ICIDS 2013: August 31, 2012.

Please email the completed application form (the RTF document is available at the ICIDS website) to the ICIDS committee at the following address:
